

# HOT JOB OF THE WEEK

---

## Physicist

*Department of Commerce  
National Institute of Standards & Technology*

If you are looking for a challenging and rewarding career associated with science and technology, the National Institute of Standards and Technology (NIST) just might be the right place for you. NIST employees provide a range of products and services that improve the quality of U.S. organizations, goods and services and enhance the technology and manufacturing infrastructure of the United States. NIST staff work at the forefront of these and other fields.

---
